## EASE OF USE, PERFORMANCE AND DURABILITY

### Features:

- Quick-disconnect bumper mount for easy on-off
- Front counterweight system that improves stability without limiting visibility
- Dump-from-seat models utilize patented VL (vertical-lift) technology
- Oversize air vent hood for enhanced collector filling
- Large, 15.31" fan to move more debris faster
- Molded, high-density tube reduces clogging
- Low center of gravity and excellent backwards visibility
- Double-hinge, lift-pivot-dump system on VL models
- Outer support frame for added strength
- Smooth inner panel construction for complete dumping
- Electrical dump operation

**FIERCELY INDEPENDENT.**
